Yug D Oswal

Intern @ WebTiga (UnifyGPT Inc, Synergetics.ai) | ex-Project Lead @ The University of Auckland, NZ | AI/ML Research@Dean SELECT, VIT | Data Science | Web & App Dev
Bengaluru, Karnataka, India

Summary

Hey there! I'm Yug Oswal, a Second Year (CSE Core) UG Student at VIT Vellore.

I'm proficient in C, C++, Python, JavaScript and also well-versed with Java, HTML, CSS, EJS, and Dart.

I'm experienced in Machine Learning, Data Science, and Web backend.

I've developed a wide array of experiences - Machine Learning research (under the Dean SELECT, VIT), to Web Backend Development projects, to Named Entity Recognition in NLP, Consultancy, Cross-team & project workflows, & Team Leadership (in a real-world project for my New Zealand internship).

I have now started to work on 2 company projects - 1 for Data Science, and the other for App Development using Flutter.

I also love reading, learning, and growing. Oh, and I'm a (part-time, self-proclaimed :)) writer too. Currently, (still) working towards the best 'me' I could think of.

Experience

WebTiga

Machine Learning Engineer

February 2024 - Present (5 months)

Bengaluru, Karnataka, India
