Founder @MyPerro || Research Executive @E-Cell || Tech ||
Startups || Sophomore at Vellore Institute of Technology
Bengaluru, Karnataka, India

Summary

As the Founder and CEO of MyPerro, I'm dedicated to reshaping the dog care landscape in India through the power of technology. Our cutting-edge platform harnesses tech-driven solutions to address the challenges pet parents face, ensuring reliable, hygienic, and highly personalized dog boarding experiences.

As an aspiring app developer and ex-intern at Corizo and Orom Corp, I am passionate about leveraging technology to create innovative solutions that solve real-world problems. As an intern, I gained valuable experience in app development and Data Science by working on projects that sharpened my skills in flutter and programming languages such as Dart, Python, Java, C and C++.

In addition to my work at Orom, I am a core committee member of the Entrepreneurship Cell, Technology and Gaming Club at VIT Vellore. At ECell I collaborate with fellow students to organize events and workshops that foster a culture of innovation and entrepreneurship on campus. And at TAG I am learning Game development there. Through this experience, I have honed my leadership, communication, and project management skills.

Prior to my internships, I also had the opportunity to work as a teen influencer for Fampay, where I created engaging content on social media platforms to promote the company's mission of revolutionizing the way teenagers manage their money.

I am excited to continue learning and growing as an Entrepreneur, app developer and Data Science Engineer and I am always seeking new opportunities to collaborate and create meaningful impact.

Experience

MyPerro

Founder

October 2023 - Present (9 months)

Vellore, Tamil Nadu, India

As the Founder and CEO of MyPerro, I'm dedicated to reshaping the dog care landscape in India through the power of technology. Our cutting-edge platform harnesses tech-driven solutions to address the challenges pet parents face, ensuring reliable, hygienic, and highly personalized dog boarding experiences.
