Cybersecurity | DevOps | Full stack Dev
Navi Mumbai, Maharashtra, India

Summary

I am a second-year computer science student at Vellore Institute of
Technology, specializing in information security. I am passionate
about learning new technologies and applying them to real-world
problems.

I am also an active member of several tech clubs and teams
at VIT, where I have gained hands-on experience in backend
development, DevOps, and network automation. I have worked
with MongoDB, Express.js, and Node.js and NextJS to develop and
deploy web applications for CSI. I have also organized hackathons
and workshops, such as HackStory and Yantra Hack, where I have
showcased my skills and learned from other experts. I am always
eager to collaborate with other tech enthusiasts and contribute to the
tech community.

Experience

Computer Society of India - VIT Student Chapter
1 year 6 months

Senior Tech Core
January 2023 - Present (1 year 6 months)

ForkThis Event Coordinator
July 2023 - September 2023 (3 months)

Event coordinator for ForkThis, a Git and Github event with 100+ participants
in GraVITas. Wrote it's backend for it's competition website. Also took a 3+
hour session explaining core Git and Github session.

Hackstory '23 Organizer and Panelist
June 2023 - June 2023 (1 month)

Organized HackStory hackathon, a collaboration between CSI, ACM, DebSoc
and Bulls&Bears
